<b>SECTION 6: ACCIDENTAL RELEASE MEASURES</b>	
<b>6.1 Personal precautions, protective equipment and emergency procedures</b>	
6.1.1 For non-emergency personnel <u>Protective equipment:</u> Put on appropriate personal protective equipment if necessary. <u>Emergency procedures:</u> Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Avoid breathing vapour or mist. Provide adequate ventilation.	
6.1.2 For emergency responders: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".	
<b>6.2 Environmental precautions</b>	
Avoid dispersal of spilt material and runoff and contact with waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways or air).	
<b>6.3 Methods and material for containment and cleaning up</b>	
6.3.1 For containment: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. 6.3.2 For cleaning up: Contain and collect spillage with non-combustible, absorbent material, e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. 6.3.3 Other information Dispose of via a licensed waste disposal contractor.

Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. <u>Measures to prevent fire:</u> Keep away from heat. Keep away from sources of ignition. <u>Measures to prevent aerosol and dust generation:</u> Store in a well ventilated area. <u>Measures to protect the environment:</u> Empty containers retain product residue and can be hazardous. <u>Advice on general occupational hygiene:</u> Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Remove contaminated clothing and protective equipment before entering eating areas. Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
